### Guaycura Restaurant

Our restaurant offers you the best quality in food and beverage and excellent and courteous service. With its travertine marble floor, a Mediterranean style patio and its charming Mexican style fountain, Guaycura restaurant is open every day for breakfast, lunch and dinner.

### Cuisine

Our cuisine is a delicious combination of traditional Mediterranean dishes with a touch of unique Mexican flavors. Throughout the seasons, the Sea of Cortez and the Pacific Ocean generously provide us with fresh fish and fancy seafood. Light desserts are filled with the vibrant colors and aromas of the fruits from Todos Santos' orchards. Most of the vegetables and herbs are organic and grown locally with special care.

### Bar Don Guillermo

Artist [Jorgeloy Teran](#) hand-painted the Moorish ceiling motifs, which reflect the Guaycura's artistic soul as much as the elegant and classy wine selection. Martini specialties, traditional drinks and imaginative inventions may be prepared for you at your whim. And for those who like fresh alcohol-free drinks, there is also a variety of organic fruit cocktails.
