Secluded Beach at Cala de Ulloa

From the palapa, you may walk or we may take you to the magnificent beach below, where you will see an authentic light-house and admire the magnificent waves at close quarters, maybe even getting your feet wet. On days when the sea is tranquil, you may swim at the southern end of the beach.

The Palapa at Cala de Ulloa

Close to the hotel, we have at your disposal a large palapa overlooking a spectacular 2-mile long virgin beach, where we may schedule social events (such as weddings, birthday parties and other celebrations), as well as short trips to take drinks or meals prepared at the palapa's kitchen, while you enjoy the view at different times of the day, including of course at sunset.

Weddings, Anniversary Parties, and Other Social Occasions

Tell us that you will be celebrating in advance of your trip, and we will offer you a gamut of private activities for your party, which we will customize especially for you.
